

BASKET MOUNTING INSTRUCTIONS

Fig 1

Attach quick release bracket to front of handlebars using 2 handlebar clamps. Screw clamp's on from front side (fig 1) using long screws through holes A (fig 6).

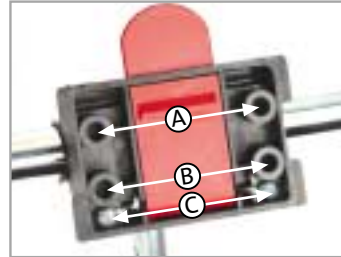

Fig 6

Attach both halves of mounting face plate on to basket making sure slotted half is on the outside and bevelled edge is down.

Fig 2 (underside)

Thread supporting cable through holes in quick release bracket and wrap over handlebar, under stem and back over other side of handlebar then through hole on other side of bracket (fig 2 & 3).

Fig 7

Screw through holes in basket inserting bolts from the outside, placing the nuts on the inner side (fig 7 & 8).

Fig 3

Fig 8

Fig 4

Pull tight and screw cable in place (fig 4) using short screws in holes B (fig 6).

Fig 9

Slide basket down onto mounting bracket until it clicks into place (fig 9). When mounted correctly, the base of the basket should be parallel to the ground.

Fig 5

Cut off excess cable (fig 5).
